The Couple's Match Book Jan 25 2022 The process of finding and making the best possible match is not an easy one. On the contrary, from an emotional perspective finding, making, maintaining, and enriching an intimate partnership is one of the most challenging tasks an adult faces. There must be an attraction or a "spark" for a true match to be made. When a couple comes for counseling, they come with the hope that their relationship can be renewed-that they can capture the heat and the emotion that they once had together. The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame explores relationship theory and research. Including self-assessment activities to help determine what actions to take to improve

relationships, this guild offers information that focuses on understanding and respecting personality differences, role perceptions, communication, and problem-solving. The balance of the book shares personal stories written by couples detailing their own experiences in an effort to help others in improving their intimate relationships. The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame can be used as a supplemental text in marriage and family courses, as well as a primary resource in couples counseling and marriage and family therapy.

Digital Healthcare Empowering Europeans Jul 31 2022 The digitization of healthcare has become almost ubiquitous in recent years, spreading from healthcare organizations into the homes and personal appliances of practically every citizen. Thanks to the collective efforts of health professionals, patients and care providers as well as systems developers and researchers,

the entire population of Europe is able to participate in and enjoy the benefits of digitized health information. This book presents the proceedings of the 26th Medical Informatics in Europe Conference (MIE2015), held in Madrid, Spain, in May 2015. The conference brings together participants who share their latest achievements in biomedical and health Informatics, including the role of the user in digital healthcare, and provides a forum for discussion of the inherent challenges to design and adequately deploy ICT tools, the assessment of health IT interventions, the training of users and the exploitation of available information and knowledge to further the continuous and ubiquitous availability and interoperability of medical information systems. Contributions address methodologies and applications, success stories and lessons learned as well as an overview of on-going projects and directions for the future. The book will be of interest to all those involved in the development, delivery and

consumption of health and care information. **Computing essentials 2000-2001** Jun 05 2020 [Workbook for Laboratory and Diagnostic Testing in Ambulatory Care E-Book](#) Oct 22 2021 Corresponding to the chapters in Laboratory and Diagnostic Testing in Ambulatory Care, 4th Edition, this workbook provides practice designed to reinforce your understanding of laboratory concepts, terminology, and procedures. The assistant soccer coach Oct 29 2019 The assistant soccer coach has existed for decades, and is a standard figure within the coaching staff, with specific roles, functions and responsibilities. However, I find it strange that nobody has yet described this profession formally. I used to only be a head coach, until one day I was proposed to be the assistant coach of U18 team of FC Barcelona. That is when I started thinking about writing this book, moved by my desire to continue learning. If I wanted to

train in my new role I could only do it by asking others and observing training sessions. But I was missing one of the pillars that has forever supported my training: studying and reading. With this book I hope to cover that lack of information. The book is divided into two parts: the first is based on describing the assistant coach in professional soccer and I have not found a more practical way to do it than through interviews with assistant coaches. Each interviewee has contributed his experiences from working with the most recognized soccer coaches: I am talking about people who have worked with Vicente del Bosque, Ernesto Valverde, Luis Enrique, Pep Guardiola, Mauricio Pochettino, Sergio González, Quique Sánchez Flores, and Paulo Sousa. The second part of the book is related to Youth soccer, which I have experienced in clubs like Atlético de Madrid and FC Barcelona. I propose the role of the assistant coach working in Youth soccer to be more formative and educational than what is currently

given, and I want to direct their effort towards two dimensions: the team's sporting performance (which the vast majority do) and the individualized analysis of the young player (which very few do). This second dimension is described in the last chapter, to demonstrate a new vision of assistant coaches in Youth soccer, who in my view have to dedicate their time to improving the players as an athlete and as a person in a more personalized and integral way.
