Kolar Gold Field Aug 30 2022 Neil Armstrong, Edwin Buzz Aldrin, and Michael Collins flew high above the planet Earth to reach the Moon and to land on it for the first time. But it was the men at Kolar Gold Field who dug deepest excavations below the surface and landed on the ultra-deep

horizon into the planet Earth for the first time in human history! The latter was a hundred times dangerous than the space odyssey. While space expeditions explore the heavenly bodies, the land expeditions explore the earthly formations all for the welfare of humankind. The talents of the men at Kolar Gold Field could be so greatly equated that they were worthy of driving the Sun around Earth. They made deepest wells on Earth or practically, it turned out to become the hell on Earth. The mine workers risked their lives to win gold for the luxury of the world community. Hence, it was all a daily rebirth for them. Reaching the lowest levels of

these golden wells drove scientists to find new sophistications in technology. With the state-of-the-art, the miners at Kolar Gold Field overwhelmed nature, posing serious challenges to man trying his destiny. They proved how limitations of nature could be overcome to achieve results! The astonished nature rewarded them suitably. The Wonders of the World themselves wondered on man overcoming the dangers at the interior of the earth, their courage, the technological innovations in their industry, etc. This Book Kolar Gold Field (Unfolding the Untold) exposes all the oblivion facts on the great city just known globally

as KGF for the first time in the world. A golden history is now placed before you. It's hoped learned man/woman like you will pass on the glorious information to your next generation and help them for a better understanding of our times. For this, should you not read this book? S. Srikumar

[Sufferings of Innocent Souls](#)
Sep 18 2021 HR violations is a major issue in Sri Lanka. Rape, Torture, Kidnapping, Intimidation, Ransom, Killing of media men and politicians etc

are the main factors of HR violations in the island of Sri Lanka, once called "the land of paradise". This book covers stories on HR violations caused by the ethnic war, some of them based on real incidents. After the independence from the British in 1948, the relationship between the majority and minority communities gradually deteriorated with the occurrence of several communal riots, the worst being the one in 1983. Policies of the Government lead the Tamil youths to take up to arms, when they found that their future is bleak. The first long story titled "Sufferings of innocent Souls" reflects the

grievances of the internally displaced (IDP) Tamil citizens after the war. The involvement of paramilitary groups in HR violations is another factor pointed out in some stories. The story "Beach boy" covers the damage caused by sexual tourism. The story "Temple entry" deals with the caste system that prevented low caste people from having access to temples; "White Van" story is based on the kidnapping vehicle used for killing or disappearance and serves as a tool for HR violation in the island.

Tamil Nationalism in Sri Lanka
Feb 09 2021 This book examines Tamil nationalism in Sri Lanka and provides insights on how Tamil nationalism has survived the destruction of the Tamil Tigers after May 2009 and continues to thrive, despite the absence of a charismatic leadership to lead it or a centralised organisation to mobilise the Tamils along ethnic nationalistic lines. The ethnic nationalist ideology shaped-up by the Tamil Tigers continues to remain the driving force of the Tamil polity in Sri Lanka and the Diaspora. Using a Foucauldian counter-historical theoretical framework, the author analyses

and offers answers to these questions: What is keeping Tamil nationalism alive despite the demise of the Tamil Tigers over a decade ago? Why do many Tamils in Sri Lanka and abroad refuse to accept a Sri Lankan political identity? How are Tamils able to continue on a nationalist path despite the absence of a unified political leadership? The book argues that Tamil nationalism has survived the latter's destruction because it has become counter-historical. It is this that has allowed, despite the internecine rivalries between Tamil political parties and Diaspora groups, the Tamil nationalist spirit to remain alive. The author also suggests

that counter-history has, for many Tamil political parties and Diaspora groups, become the means of waging war, other than through an armed struggle, against the Sri Lankan state. Based on field research, interviews and documentary analysis, the book provides empirical and unique insights on Foucault's thesis that power is multifaceted and can function in the absence of centralized mechanisms. This book will be of interest to researchers in the fields of Politics and International Relations, in particular those working on ethnic nationalism, post-armed conflict peacebuilding/conflict resolution, the politics in Sri

Lanka, diaspora politics and Foucault.

Silence of the Fireflies Apr 01 2020 'Silence of the Fireflies' is an an endearing and illustrative poetry book. In a world where we still fantasise about the dominance of an ideological position, it does not matter who we are tilting towards, we treat them as a caveat and start worshipping at the altar. One does not have to

agree with any kind of politics as long as the questions are not brushed aside, ignored, never taken cognizance of. Therefore this anthology is dedicated to lives that have been spent asking questions. If the march of ideological dominance can be ideated through one single metaphor then it is the stinging spectre of the "market" and the subversion of the democratic forces by the market forces.

Mental Health: A Journey from illness to wellness Mar 01 2020 The controls used on

emotional arousal and cognitive processes are difficult in several societies, because of the presence of beliefs in several more issues and forces, which influence the bidirectional to and fro journey of effects between mental health and mental illness. Human beings in general accept only experiential methods of verifications and approval of reality, when they come in contact with their own mental and physical conditions. However, many may still be influenced by suggestions and produce experiences as per suggestions, which may not respond to scientific methods of verifications and corrections. Mental health and diseases,

mainly in the domain of emotional health may therefore be affected by beliefs and psychological effects produced from cognitive processes and cognitive molding of emotions. Interventions in the cognitive and emotional domains do often work and changes may be brought out at the psychological and biological levels

The surgeons depend on their clinical experiences in making

the diagnosis. Surgical technique is never static. It changes for newer techniques to improve the quality of the outcome. Some of the cases where I had a dilemma in diagnosis are discussed. How scabies was eradicated in hostel inmates and how major surgeries were done in the district headquarter hospital without proper blood bank may be interesting for the readers. Sometimes, the surgeon must have some humanitarian considerations in treating the cases, for example, surgery for congenital pyloric stenosis, volvulus sigmoid and a patient who had gastrojejunostomy kept in the ward for more than one month for hospital food.

With a full team sprite, 40 cases of injury in a fire accident in a cracker shop were treated. Emergency tracheostomy, Burr hole in head injury, intercostals drain in thoracic injury and even bilateral thoracotomy done in chest injuries by general surgeons are discussed. Appendicular abscess was drained with calculated risks. Duodenal perforation in situs inverses totalis and enteric perforations are discussed. The topics are arranged as per organ pathology for easy reading. Dilemma in Surgical Practice is documentary evidence that surgeons in those days were real general surgeons dealing with all sorts

of cases to save the life of the patients. The senior surgeons who read this book will recollect with their experiences.

The Therapy May 03 2020

The Therapy is an absolutely fantastic piquant plot, delightfully crafted where romance accentuate a high

degree of sensuality in an inter-racial marriage between Vije and Dr.Sarani. Vije met with a nasty car accident and his right leg was severely fractured. Sarani with her potentially effective treatment cured him in a short span of time. They opened up a Holiday Resort and an Orthopedic Clinic in the Maldives. She discovered a therapy for painless child birth and HIV virus which brought her laurels. She migrated to Canada where circumstances force her to involve in an undue affair with Vijes brother who was afflicted with Aids. He was gunned down and Vije was taken as prime suspect. He was imposed with death sentence to execute on electric chair

according to the new enactment of the Penal code which was introduced to curb the ever escalating homicides in Canada. Vije got a dramatic release from the jail and story moves in suspense. The Therapy provides a clear answer to the existing dissensions and holocausts in every parts of the globe where less knowledgeable people with blind faith and racial misconceptions commit heinous crimes.

A Cop Walks Down Memory Lane...! Aug 06 2020 All the memories of a man in his life, whether it might be of heart-warming or heart-breaking, should not go buried along with his last breath, but should

leave some inputs to his family members, relatives and friends to make them aware of his past life track for their future guidance. At the same time, if the same man happens to be a person who had served in any public service organization, then his memories should not go vanished away along with his soul. However, such memories should necessarily leave a lesson to his successors and all the common public to learn the morals and to realize the things, as to how the problems are raised in societies and how the same could be prevented. Unlike the other departmental officials of the government services, the police officials would not have an

opportunity of second innings to continue their services in any other sector after their retirement, as the police service is entirely different from other services of the governing bodies, like technical, educational, medical, and commercial services. Because of this, most of the retired police officials would feel themselves isolated and spend the remaining part of their lifetime in a lackadaisical manner. Under such circumstances, it is my son Arulmurugan, and my daughter Sivasakthi, who are now living respectively in Michigan and Arizona States of USA, have suggested me to write some useful articles in blog, a kind of

website, to share my thoughts in good faith with hundreds and thousands of readers over the months and years. My children's encouragement and guidance empowered me to enter into such blog-writings and publish the same in my blog site. As far as the police department is concerned in olden days, our traditional practice was to write everything manually by our own hand for all kinds of script works until the police department was modernized. As I had been accustomed for a long time only to such manual writings, I gradually learned the system related works and started to login into my blog site and write the articles

directly in my blog after my superannuation. Initially, I was writing on some social issues in my blog. Then, a spark came in my mind as to why should not I write short stories in my blog, based on the cruxes of some past occurrences that came across in my police service. Since I had been in the regular habit of preparing my case diaries and the investigation reports in my own handwriting throughout my service, it was easy for me to recollect some past occurrences and shape up the same in the form of short stories, adding some spicy essence to pep up the style of writing. While writing such short stories, I shaped up the same with an object of giving

some moral messages, thrill, fun, and some social thoughts to every reader, without touching the sentiments of anyone. The names of the characters in the short stories and the articles have been changed. I have spent almost all the days, after my superannuation, in writing fifty-five episodes, most of which are short stories and few are satirical article to poke fun at some social evils and injustice, with a narrative style of a professional storyteller. At this moment, I would like to make a self-explanation. Yes! Some may think as to why this Policeman has written this book in English. First, I would like to state that I love my

mother tongue Tamil, the most ancient of all other languages. Anyhow, I had a little passion of learning one more language in addition to my mother tongue, because of which, I had a brief interest in grooming the English language in me. I have written this book in English with an idea of conveying my short stories and thoughts to all the people irrespective of linguistic variations and regional differences. -

History Of Journalists Organisations In Madras Apr 25 2022 The Press in India had been a powerful force since its inception. It not only influenced the minds of the people but has also remained a guiding star in the lives of succeeding generations. During the Colonial era, journals and newspapers started and managed by the nationalist Indians rattled British authorities and forced them to introduce stringent measures against the Press, particularly against the Vernacular Press.

Many a time, journals and newspapers were to face proscription from the imperial authorities, as fiery articles, they feared, would push the nation into great chaos. Such was the power of the Press. Since no journalist organisation in Chennai had all the documents related to the study, I made use of websites of different organisations, newspapers and magazines. However, a large chunk of information was culled out from the documents preserved in the office of the Madras Union of Journalists. I profusely thank its office bearers for permitting me the access. But for their help, the task of documentation and study

would have been more strenuous. As indicated elsewhere in this book, the splits in journalist's unions has split their office records also. Hence a yawning gap is noticed in the history of different unions in Chennai. Some organisations have only limited

records in the form of their constitution, occasional newsletters or handouts.
