If You Didn't Bring Jerky, What Did I Just Eat? Oct 30 2019 A hilarious collection of essays dedicated to life in the great outdoors from Field & Stream's acclaimed Sportsman's Life columnist. For nearly a decade, Bill Heavey, an outdoorsman marooned in suburbia, has written the Sportsman's Life column on the back page of Field & Stream, where he does for hunting and fishing what David Feherty does for golf and Lewis Grizzard did for the South. If You Didn't Bring Jerky, What Did I Just Eat? is the first collection of Heavey's sidesplitting observations on life as a hardcore (but often hapless) outdoorsman. Whether he's hunting cougars in the desert, scheming to make his five-year-old daughter love fishing, or chronicling his father's life through a succession of canine companions, Heavey brings his

trademark wit to a wide-range of outdoor enthusiasms, running the gamut from elite expeditions to ordinary occupations. In turns hysterical and poignant, entertaining and educational, this is an irresistible addition to the collection of any avid outdoorsman—or any suburbanite intrigued by the call of the wild.

The 48 Laws Of Power Feb 12 2021 THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

_____ (From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

Stars in My Pocket Like Grains of Sand Jan 14 2021 In this far-future classic,

sexual attraction is a science, gender is a whole new construct, and information is both precious and perilous . . . With a burst of radiation to the brain, an angry young man is transformed into a dim-witted slave—suitable only for the most brutal work. But the tragedy of Rat Korga is the prologue to the story of Marq Dyeth, an “industrial diplomat,” who travels from world to world in this exciting, sprawling future, solving problems that come with the spread of “General Information.” The greatest fear in this future is Cultural Fugue, a critical mass of shared knowledge that can destroy life over the surface of an entire world in hours. In this dizzyingly original novel, information is perilous, but without it a human is only a rat in a cage. Campbell Award winner Jo Walton described this science fiction landmark as being “like pop rocks for the brain. . . . Things sparkle and explode all over, and it’s not entirely comfortable but it is quite wonderful.” This classic read predicted the Internet and is packed with themes that still resonate today. This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

This Close to Happy Jul 08 2020 A New York Times Book Review Favorite Read of 2016 “Despair is always described as dull,” writes Daphne Merkin, “when the truth is that despair has a light all its own, a lunar glow, the color of mottled silver.” This Close to Happy—Merkin’s rare, vividly personal account of what it feels like to suffer from clinical depression—captures this strange light. Daphne Merkin has

been hospitalized three times: first, in grade school, for childhood depression; years later, after her daughter was born, for severe postpartum depression; and later still, after her mother died, for obsessive suicidal thinking. Recounting this series of hospitalizations, as well as her visits to myriad therapists and psychopharmacologists, Merkin fearlessly offers what the child psychiatrist Harold Koplewicz calls “the inside view of navigating a chronic psychiatric illness to a realistic outcome.” The arc of Merkin’s affliction is lifelong, beginning in a childhood largely bereft of love and stretching into the present, where Merkin lives a high-functioning life and her depression is manageable, if not “cured.” “The opposite of depression,” she writes with characteristic insight, “is not a state of unimaginable happiness . . . but a state of relative all-right-ness.” In this dark yet vital memoir, Merkin describes not only the harrowing sorrow that she has known all her life, but also her early, redemptive love of reading and gradual emergence as a writer. Written with an acute understanding of the ways in which her condition has evolved as well as affected those around her, *This Close to Happy* is an utterly candid coming-to-terms with an illness that many share but few talk about, one that remains shrouded in stigma. In the words of the distinguished psychologist Carol Gilligan, “It brings a stunningly perceptive voice into the forefront of the conversation about depression, one that is both reassuring and revelatory.”

Misery Loves Comedy Mar 16 2021 A psychiatric case study masquerading a fancy-pants graphic novel, *Misery Loves Comedy* collects Ivan Brunetti's early issues (no pun intended) wait, let's rephrase that. *Misery Loves Comedy* collects the first three issues of the legendary comic book series *Schizo* in their entirety, as well as a host of miscellaneous flotsam and jetsam from various anthologies, c. 1992-2005. Readers will find the author's unwitting self-caricature as a paranoid, deluded young man intriguingly repugnant and often chuckle-inducing. Besides Brunetti's trademark nihilism, self-loathing, relentless depression, and inchoate, spittle-soaked misanthropy, these earlier comics offer a dollop of scatology and blasphemy for that extra puerile, lowbrow tang. These are comics for those who enjoy witnessing one man's sanity in its final death rattle, swinging its tail from anhedonia to schadenfreude and back again. Also: lots and lots of filthy jokes. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

They Shoot Canoes, Don't They? Sep 02 2022 With tongue pressed firmly in cheek and a gentle but penetrating eye for human foibles, Patrick F. McManus celebrates the hidden pleasures, unappreciated lore, and opportunities for disaster to be found in the recreations of camping, hunting, and fishing in his hilarious collection *They Shoot Canoes, Don't They?* Gathered here for the reader's edification are such treasures as the true but little known story of the discovery of the efficacy of live bait by Genghis Khan's chef, an examination of the precarious and perhaps fanatical expertise required for ice fishing, and a consideration of the circumstances that can cause a deer to ride a bicycle. Among additional topics explored are *The Crouch Hop and Other Useful Outdoor Steps*, *The Sensuous Angler*, and *Psychic Powers for Outdoorsmen*. Included, too, is *The Hunter's Dictionary*, an invaluable lexicon that helps the novice sportsman understand such arcane terminology as “Oooooooooo-ah-ah-ah! (If there's one

thing I hate, it's putting on cold, wet pants in the morning)" and "Baff mast pime ig bead feas mid miff pife! (That's the last time I try to eat peas in the dark with my hunting knife!)" The author's appreciation of outdoor life began in his early boyhood, when he absorbed a wealth of improbable information imparted by the old woodsman Rancid Crabtree, "who bathed only on leap years." Young McManus also enjoyed special adventures with his ill-remembered sidekick, Retch Sweeney, and another boon companion of days gone by, the loquacious family dog, Strange, whose exploits as a hunter were limited to assaulting stray chickens and on one memorable occasion a skunk. "McManus here follows up A Fine and Pleasant Misery with a collection of sketches that launches him into the front ranks of outdoor humorists."—Library Journal

The Bear in the Attic Aug 21 2021 The beloved humorist and bestselling author returns with his most riotous collection of essays to date. Overflowing with his trademark outdoorsman's wit, Patrick F. McManus's newest collection ponders the strange allure of the RV, the existential implications of being lost, the baffling tendency of animals to outsmart those who wish to hunt them, and the singular pleasure of doubling the size of every fish one doesn't actually catch. Combining the curmudgeonly voice of Dave Barry and the sly humor of Garrison Keillor, McManus brilliantly captures the everyday absurdities that comprise our existence. Alongside his humor, McManus's inimitable vision consistently evokes a childlike wonder at the natural world. Even if we are running low on food, the compass is broken, and we are fairly certain we have just spotted a family of Sasquatches frolicking in the treetops, *The Bear in the Attic* makes the outdoors seem irresistible.

***Mount Misery* Dec 13 2020 From the *Laws of Mount Misery*: There are no laws in psychiatry. Now, from the author of the riotous, moving, bestselling classic, *The House of God*, comes a lacerating and brilliant novel of doctors and patients in a psychiatric hospital. *Mount Misery* is a prestigious facility set in the rolling green hills of New England, its country club atmosphere maintained by generous corporate contributions. Dr. Roy Basch (hero of *The House of God*) is lucky enough to train there *only to discover doctors caught up in the circus of competing psychiatric theories, and patients who are often there for one main reason: they've got good insurance. From the *Laws of Mount Misery*: Your colleagues will hurt you more than your patients. On rounds at *Mount Misery*, it's not always easy for Basch to tell the patients from the doctors: Errol Cabot, the drug cowboy whose practice provides him with guinea pigs for his imaginative prescription cocktails . . . Blair Heiler, the world expert on borderlines (a diagnosis that applies to just about everybody) . . . A. K. Lowell, née Aliyah K. Lowenschteiner, whose Freudian analytic technique is so razor sharp it prohibits her from actually speaking to patients . . . And Schlomo Dove, the loony, outlandish shrink accused of having sex with a beautiful, well-to-do female patient. From the *Laws of Mount Misery*: Psychiatrists specialize in their defects. For Basch the practice of psychiatry soon becomes a nightmare in which psychiatrists compete with one another to find the best ways to reduce human beings to blubbing drug-addled pods, or incite them to an extreme where excessive rage is the only rational response, or tie them up in Freudian knots. And all the while, the doctors seem less interested in their patients' mental health than in a host of other things *managed care insurance money, drug company research grants and kickbacks, and their own professional advancement. From the *Laws of Mount Misery*: In psychiatry, first comes treatment, then comes diagnosis. What *The House of God* did for doctoring the body, *Mount Misery* does for doctoring the**

mind. A practicing psychiatrist, Samuel Shem brings vivid authenticity and extraordinary storytelling gifts to this long-awaited sequel, to create a novel that is laugh-out-loud hilarious, terrifying, and provocative. Filled with biting irony and a wonderful sense of the absurd, Mount Misery tells you everything you'll never learn in therapy. And it's a hell of a lot funnier.

***Hidden Valley Road* May 06 2020 #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • ONE OF GQ's TOP 50 BOOKS OF LITERARY JOURNALISM IN THE 21st CENTURY • The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.**
