[The Legal Protection of Databases](#) Mar 22 2022 Mark Davison examines several legal models designed to protect databases, considering in particular the EU Directive, the history of its adoption and its transposition into national laws. He compares the Directive with a range of American legislative proposals, as well as the principles of misappropriation that underpin them. In addition, the book also contains a commentary on the appropriateness of the various models in the context of moves for an international agreement on the topic. This book will be of interest to academics and practitioners, including those involved with databases and other forms of new media.

The Works of Jack London, Vol. 11 (of 17) May 12 2021 The Iron Heel is a dystopian novel by American writer Jack London, first published in 1908. Generally considered to be "the earliest of the modern dystopian" fiction, it chronicles the rise of an oligarchic tyranny in the United States. In The Iron Heel, Jack London's socialist views are explicitly on display.

The Works of Henry James, Vol. 02 (of 04) Jan 08 2021 Picture and Text is a collection of essays by Henry James on the art of illustration, published in 1893. The American is a novel by Henry James, originally published as a serial in The Atlantic Monthly in 1876-77 and then as a book in 1877.

Muqtada Mar 30 2020 Time magazine listed him as one of its "100 People Who Shape Our World." Newsweek featured him on its cover under the headline "How Al-Sadr May Control U.S. Fate in Iraq." Paul Bremer denounced him as a "Bolshevik Islamist" and ordered that he be captured "dead or alive." Who is Muqtada al-Sadr, and why is he so vital to the future of Iraq and, arguably, the entire Middle East? In this compellingly readable account, prize-winning journalist Patrick Cockburn tells the story of Muqtada's rise to become the leader of Iraq's poor Shi'ites and the resistance to the occupation. Cockburn looks at the killings by Saddam's executioners and hit men of the young cleric's father, two brothers, and father-in-law; his leadership of the seventy-thousand-strong Mehdi Army; the fierce rivalries between him and other Shia religious leaders; his complex relationship with the Iraqi government; and his frequent confrontations with the American military, including battles that took place in Najaf in 2004. The portrait that emerges is of a complex man and a sophisticated politician, who engages with religious and nationalist aspirations in a manner unlike any other Iraqi leader. Cockburn, who was among the very few Western journalists to remain in Baghdad during the Gulf War and has been an intrepid reporter of Iraq ever since, draws on his extensive firsthand experience in the country to produce a book that is richly interwoven with the voices of Iraqis themselves. His personal encounters with the Mehdi Army include a tense occasion when he was nearly killed at a roadblock outside the city of Kufa. Though it often reads like an adventure story, Muqtada is also a work of painstaking research and measured analysis that leads to a deeper understanding both of one of the most critical conflicts in the world today and of the man who may well be a decisive voice in determining the future of Iraq when the Americans eventually leave.

[Modeling, Analysis and Enhancement of the performance of a Wind Driven DFIG During steady state and transient conditions](#) Sep 16 2021 Recently, wind electrical power systems are getting a lot of attention since they are cost competitive, environmentally clean, and safe renewable power source as compared with the fossil fuel and nuclear power generation. A special type of induction generator, called a doubly fed induction generator (DFIG), is used extensively for high-power wind applications. They are used more and more in wind turbine applications due to the ease of controllability, the high energy efficiency, and the improved power quality. This research aims to develop a method of a field orientation scheme for control both, the active and the reactive powers of a DFIG that are driven by a wind turbine. Also, the dynamic model of the DFIG, driven by a wind turbine during grid faults, is analyzed and developed, using the method of symmetrical components. Finally, this study proposes a novel fault ride-through (FRT) capability with a suitable control strategy (i.e. the ability of the power system to remain connected to the grid during faults).

Miss Anne in Harlem Mar 10 2021 Celebrated scholar Carla Kaplan's cultural biography, Miss Anne in Harlem: The White Women of the Black Renaissance, focuses on white women, collectively called "Miss Anne," who became Harlem Renaissance insiders. The 1920s in New York City was a time of freedom, experimentation, and passion-with Harlem at the epicenter. White men could go uptown to see jazz and modern dance, but women who embraced black culture too enthusiastically could be ostracized. Miss Anne in Harlem focuses on six of the unconventional, free-

thinking women, some from Manhattan high society, many Jewish, who crossed race lines and defied social conventions to become a part of the culture and heartbeat of Harlem. Ethnic and gender studies professor Carla Kaplan brings the interracial history of the Harlem Renaissance to life with vivid prose, extensive research, and period photographs.

Don't You Save Her! Jul 02 2020 We're asking questions. Because we want answers. Why is there an organized effort to control the narrative on the case of Christopher Watts? What is it the attackers were hired to hide? Is it true that Christopher Watts' wife was Bipolar - as her father-in-law suggested during his interview? Is it true that she was medically abusing their children - as we've been told by people who claim to know that she was caught by the hospital in December of 2016? Is it true that she was a con? Is it true that at the time of her death there was an open CPS case against her? If so, is it true that she was not allowed to be alone with their children? Is it true that Christopher Watts was a battered husband? Be clear, we have the right to discuss true crime cases that are on the public stage - without being attacked. Yet, the attackers have "mass reported" and shut down discussion channels and groups to interfere with our right to discuss true crime cases on social media. The attackers are also flooding my book reviews with fake posts. They don't bother to read my work. They don't bother to discuss the cases. Instead, they post libelous comments accusing me of cheating on my ex? Accusing me of lying about my law degree? Accusing me of lying about having my own real estate company? Also, the attackers claim that I plagiarize my work. Obviously they don't even know the meaning of the word. Clearly, those who are attempting to silence us richly deserve to be arrested and jailed for the bad acts they have committed and continue to commit against us. Because we have the right to speak. We have the right to discuss true crime cases that are on the public stage. We have the right to ask questions and to state our opinions on the case while the people who are attempting to silence us - lose their right to freely speak the second they use free speech to harass and harm us. There are two little girls - Bella and Ce Ce Watts - at the center of this case who deserve for us to continue the discussion. Because Bella and Ce Ce DESERVE FOR THE TRUTH TO BE KNOWN. Is it possible their father was telling the truth in his first police interview when he insisted that HE DID NOT MURDER HIS CHILDREN? Join the discussion. And YOU decide.

How to Lead Others Aug 27 2022 In any job, there will come a time when you are asked to lead other people. But while people are often well trained in the skill set of their particular profession, few people are ever taught how to lead. As such, those first steps into leadership can seem daunting - what do you actually do? How do you really lead? How do you build an effective team? And how do you lead colleagues who used to be your peers? How to Lead Others aims to convey the basics of leadership in a way that is concise, relevant and practical by breaking down leadership into eight simple lessons: · Defining the task; · Effective planning; · Briefing; · Controlling; · Motivating; · Organizing; · Evaluating; and · Leading by example. Aimed at those who, regardless of industry or business sector, are about to take their first steps on the leadership path, or who are at an early stage in their career and realise that leadership responsibilities lie ahead of them, How to Lead Others is the essential handbook to one of the most important and challenging aspects of professional life.

Moving Up Without Losing Your Way Jun 01 2020 "Upward mobility through the path of higher education has been an article of faith for generations of working-class, low-income, and immigrant college students. While we know this path usually entails financial sacrifices and hard work, very little attention has been paid to the deep personal compromises such students have to make as they enter worlds vastly different from their own. Measuring the true cost of higher education for those from disadvantaged backgrounds, Moving Up without Losing Your Way looks at the ethical dilemmas of upward mobility--the broken ties with family and friends, the severed connections with former communities, and the loss of identity--faced by students as they strive to earn a successful place in society!"--Dust jacket.
