[Manual for the United States Republic](#) Apr 28 2022 After a year of face-to-face negotiations with high-ranking members of the armed forces of the united States of America, the leaders of the freedom movement have joined together to bring you a four step comprehensive remedy - the Restore America Plan - whereby the military has agreed to follow the orders of the legitimate de jure government upon its proper restoration and execution. To be clear, this is not a typical patriot "remedy." The four step Restore America Plan was proposed by high-ranking members of the military who are tired of taking orders from a corporate CEO (the President of the corporate UNITED STATES, and who recognize the People as the last chance to avoid a third world war. In fulfilling this "call to action," the Guardian Elders who wrote the Declaration of the Restore America Plan are prepared, with your assistance, to restore the one true sovereign authority on the land, once and for all, as the only lawful government of the United States of America in truth - and in the eyes of the military commanders. As you will see when you read the one page Declaration and the Warrants and Orders attached thereto, the remedy is already won, even before it begins. By its very nature, the mere act of re-inhabiting the de jure institutions of law creates the victory we have all been seeking. Actors throughout the United States Federal Corporation understand that they must ultimately defer to the de jure authority of the restored Republic. The remedy is self-actualizing. If you elect to join us in this historic adventure, you will be part of the lawful solution to the current problems we face, instead of a perpetual victim. Your future and the future of your children will finally be in your hands. There will be no more excuses, or anyone else to blame. The future will be yours to create. By joining, you agree to take a covenant of office and occupy the office of juror of the De jure Grand Juries which are instantly assembled under the Creator in each of the fifty (50) Republic free states for the purpose of reinhabiting the

de jure institutions of lawful government, eliminating de facto institutions, and peacefully restoring the People's wealth. Indeed, the power will rest with you. You may also wish to join the Guardians of the Free Republics: the well-regulated volunteer defenders of the free Republics and the unanimous Declaration of the Republic of the united States of America.

**The Bluejacket's Manual, 25th Edition** Jun 18 2021 For well over a century, this venerable book has been a mandatory part of every Sailor's sea bag. When it first appeared in 1902, there were instructions on rowing and sailing, "sighting telescopes," and "wig-wag" code, all subjects of importance to the Bluejackets of the day. This new edition reflects technologies, cultural attitudes, and terminology that would be foreign to those turn-of-the century Sailors, but the relevance of this long-standing reference and instructional guide remains. Written by a Sailor whose service included sea duty in patrol craft, destroyers, cruisers, and aircraft carriers as both an officer and a "white hat," this newest edition has been overhauled once again to reflect the current state of the ever-evolving U.S. Navy, including changes in uniforms, ratings, ships, aircraft, and personal policies, among many others. Primarily intended to serve Sailors (from seamen to admirals), this book has long been used by potential recruits, Navy buffs, and a cadre of dedicated collectors.

**Foundry Manual** Jan 26 2022 This Manual is intended primarily for use by foundry personnel aboard repair ships and tenders. The recommended practices are based on procedures proved workable under Navy conditions and are supplemented by information from industrial sources. The Manual is divided into two general sections.

The first section, chapters 1 through 13, contains information of a general nature, such as "How Metals Solidify," "Designing a Casting," "Sands for Molds and Cores," "Gates, Risers, and Chills," and "Description and Operation of Melting Furnaces." Subjects covered in these chapters are generally applicable to all of the metals that may be cast aboard ship. The second section, chapters 14 through 21, contains information on specific types of alloys, such as "Copper-Base Alloys," "Aluminum-Base Alloys," "Cast Iron," and "Steel." Specific melting practices, suggestions for sand mixes, molding practices, gating, and risering are covered in these chapters. This manual has been written with the "how-to-do-it" idea as the principal aim. Discussions as to the "why" of certain procedures have been kept to a minimum. This manual contains information that should result in the production of consistently better castings by repair ship personnel.

[Prepper's Medical Manual](#) Sep 29 2019 Be Prepared to Face Any Medical Emergency With This Essential Guide While many first aid manuals provide valuable instructions on how to respond to various medical situations, they may not meet the needs of the average citizen preparing to meet a broad range of medical emergencies, with limited skills, limited supplies, and limited or non-existent support from the Emergency Management System and medical professionals. Veteran survivalist and trained EMT James C. Jones did not create "just another" first aid book. Instead, each subject is approached from the perspective of equipping the untrained citizen to provide care for family members and neighbors, under extremely trying conditions, without expert help. Prepper's Medical Manual includes basic first aid subjects, such as bandaging, splinting, control of bleeding, and treatment of shock, along with those subjects specifically associated with the needs of those responding to true disaster emergencies.

**Cauldron of the Gods** Jan 14 2021 Imagine the forest. As darkness falls, the somber beeches disappear in misty twilight and shadows seem to gather under their branches. Far away, the blackbird's call tells of the coming of the night. The birds cease their singing, silence descends, soon the beasts of the night will make their appearance. Between tangled roots, hidden by nettles and brambles, the earth seems to ripple. A few humps of earth seem to emerge from the ground. They are the last traces of burial mounds, of mounds, which were tall and high 2500 years ago. Many of them have disappeared, hidden by tangled roots of beech and oak, ploughed flat by careless farmers, others again show caved-in tops where grave robbers have looted the central chamber. The locals shun these hills. There are tales that strange fires can be seen glowing on the mounds, and that on spooky nights, great armed warriors arise from their resting places. Then the doors to the deep are thrown open and unwary travelers

have to beware of being invited into the halls of the dead and unborn. Here the kings of the deep feast and celebrate, time passes differently and strange treasures may be found. Who knows the nights when the gates are open? Who carries the primrose, the wish-flower, the strange blossom that opens the doors to the hollow hills?
