Greek and Roman Military Manuals Feb 09 2021 This volume explores the enigmatic primary source known as the ancient military manual. In particular, the volume explores the extent to which these diverse texts constitute a genre (sometimes unsatisfactorily classified as 'technical literature'), and the degree to which they reflect the practice of warfare. With contributions from a diverse group of scholars, the chapters examine military manuals from early Archaic Greece to the Byzantine period, covering a wide range of topics including readership, siege warfare, mercenaries, defeat, textual history, and religion. Coverage includes most of the major contemporary siege manual writers, including Xenophon, Frontinus, Vegetius, and Maurice. Close examination of these texts serves to reveals the complex ways in which ancient Greeks, Romans, and Byzantines sought to understand better, and impose order upon, the seemingly irrational phenomenon known as war. Providing

insight into the multifaceted collection of texts that constituted military manuals, this volume is a key resource for students and scholars of warfare and military literature in the classical and Byzantine periods.

Manual for Men Jun 23 2019 *Manual for Men* is for men who are in the arena, warriors for Christ and His Church. It is for those men who battle daily for their souls and for their family. It is often a struggle to shed the sins and vices the world offers men, but it's a battle we must fight and win. In Part I, Bishop Thomas Olmsted calls for Catholic men to step up and "into the breach" in service to God, their families, parishes, and wider communities. In the course of his exhortation, Olmsted unveils: * How being a Christian man is far more than physical prowess or worldly power * Why the world and the Church desperately need men--real men--to fight for them in spiritual combat * The vital importance of prayer and the sacraments in the life of every man * Why fatherhood, fully understood, is so crucial for every man * The value of devotion to a patron saint (complete with 10 manly suggestions) * Most importantly, how men have the perfect model of man in Jesus Christ, and how we can follow his example. In Part II, Cook presents a treasure trove of prayers, church teachings, and writings from the saints that serve as a tremendous source of inspiration for men seeking to become better men of God. It is at once an essential guide and a profound book of prayers designed specifically for men. Now, perhaps more than ever, men need to be men. But what it means to be a man has been twisted into a pale and mangled image of true manhood. *Manual for Men* serves as a field guide and instruction manual for those husbands, fathers, sons and brothers who would become real men of God-- men who protect, physically and spiritually, those entrusted to them; men who sacrifice, pray, fight, love, and live by the example of Christ. There is a battle for our souls, our families, our world, and Our Lord calls us men to fight. Are you ready to answer the call? Will you accept Bishop Olmsted's plea to "engage in the battle that is raging around you"?
